

**Dr. Saelor has been with the Department for eight years and has worked at all Animal Care Centers (ACC). “As a veterinarian,” said Dr. Saelor, “we all take the oath to try and make a difference in this profession no matter how small. With every animal that comes through the shelter, it has been a great learning experience to be able to interact with animals that are so desperately in need. These animals need love, compassion, extra care, extra sympathy, etc., and it has been a pleasure to be put into a position to provide that for them. I knew that working for the shelter system would be different compared to private practice, but I couldn’t have anticipated the fulfillment I get out of doing THIS job.”**

**Dr. Saelor is a member of the SCVMA, SCFVMA, and was a Shelter Medicine Fellow with the UW/UCD Shelter Medicine Fellowship 2016-2017. She is an advanced certified scuba diver, which allows her to enjoy a “different world of animals” under the sea. She has two Great Danes, Kainoa and Kahuna, and a Cane Corso named Kilo. Whenever she can get her children to nap at the same time, she enjoys reading, cooking, kickboxing, and taking Krav Maga classes. But whenever she gets the chance, she takes her kids to Disneyland – the “Happiest Place on Earth.”**
