

What people are saying about PAF

I am a person of low income and financially it is hard to keep up with a pet that is sick. I was going to give Moom up with a heavy heart when Catherine from the Carson/Gardena Animal Care Center gave me your number. I made the call, I wrote an email, and I was granted a Care Voucher. I am forever grateful no matter what outcome happens that there is a program like this for people like me and pets like him.
